Park Directive No. 3190

VEHICULAR TRAFFIC REGULATIONS

In addition to applicable state and county laws regulating the registration and operation of vehicles in the State of Arkansas, the following regulations shall apply to vehicles operated on state park property:

1. Posted speed limits shall be strictly observed wherever posted.
2. Roads and Driveways -- Only regularly designated paved or improved park roads or driveways will be used by vehicular traffic except as specifically authorized by park officials. Signs or barriers restricting entry to any or specific vehicles will be observed.
3. Trucks larger than one (1) load ton, commercial vehicles, busses, tractors, or towed vehicles (other than towed recreation vehicles) not actively engaged in transportation of persons for recreational purposes are prohibited from entry on state park property. Commercial vehicles making deliveries to park activities and authorized construction vehicles are excluded, with restrictions imposed by park superintendents to prevent damage to roads and property when required.

State and County Highways on state park property are open to traffic as governed by applicable laws for such highways.

Effective until superceded
